

Testimonial

From an Engaged Parent

“... I am an engaged parent at my children's school. I've attended various trainings and meetings at the school and am very active in my children's education to help them be successful. ...

*Being able to view the parent activities online via the **Parent Engagement Tracker** was very beneficial for me to better plan to attend the activities. It also motivated me to do more for my children. ...*

*The **Parent Engagement Tracker** is a system I believe any school and parent could benefit. It definitely made it easier for me to know what I could be a part of in my children's school and how I could continue to help the school.”*
